**SUPPLEMENTAL NOTICE OF ALLOWANCE**

***Claim Status***

1. The proposed amendment after allowance filed on March 17, 2005 has been entered. The amendment canceled Claims 18, 44, and 47, with Claims 1-14, 31, and 67-75 being previously canceled. Therefore, Claims 15-17, 19-30, 32-43, 45, 46, and 48-66 are pending.

***Drawings***

2. This application has been filed with drawings that are considered informal; said drawings are acceptable for examination purposes. The review process for drawings that are included with applications on filing has been modified in view of the new requirement to publish applications at eighteen months after the filing date of applications, or any priority date claimed under 35 U.S.C. §§ 119, 120, 121, or 365. The correction to figure 1 submitted in formal amendment 7/26/2004 is acceptable to the Examiner. See PTO Form 948 for the Official PTO Draftsperson's objections.

***Claims Rejections - 35 U.S.C. § 103( a )***

3. Rejections Withdrawn.

***Allowable Subject Matter***

3. Claims 15-17, 19-30, 32-43, 45, 46, and 48-66 are allowed.

***Examiner's Statement of Reasons For Allowance***

4. The following is an examiner's statement of reasons for allowance:

The Applicant has sufficiently shown that the elements of independent claims 15, 28, 41, 43, 50, 54, 58, and 61 have multiple implementation details not disclosed in the prior art of record.

Independent claims 15, 28, 41, 43, 50, 54, 58 & 61 substantially recite in part a contractor global on-line building construction materials ordering system and method where building construction materials to be ordered are categorized and classified for specific regional building construction requirements and orders are filed by specific regional suppliers knowledgeable about the regional requirements of the contractor and capable of supplying the required regional building construction materials; support for chimed elements and limitation are found in the specification of the instant application on at least pp. 18-22. In this case, class searches, and word searches have shown that neither a given reference nor a combination of references exists which contain elements in an inclusive arrangement as claimed in the instant invention. Therefore, the prior art references of record do not precisely teach or suggest the combination of elements of the instant invention. Although it is known in the prior art to handle "*orders intended for local sources or suppliers . . . with local supplier programs. . .*" (See Schlafly (col. 5, lines 53-67; and col. 6, lines 1-3), there is no disclosure in the prior art of record for providing part a contractor global on-line building construction materials ordering system and method where building construction materials to be ordered are categorized and

Art Unit: 3622

classified for specific regional building construction requirements and orders are filled by specific regional suppliers. Therefore, the instant invention as claimed in claims 15, 28, 41, 43, 50, 54, 58, and 61 is not anticipated by the prior art of record. Furthermore, the prior art references of record do not implicitly, individually, or in combination disclose elements that would have rendered the claimed elements and limitations in the instant invention obvious to one of ordinary skill in the art at the time of the invention.

Dependent claims 16, 17, 19-27, 29, 30, 32-40, 42, 45, 46, 48, 49, 51-53, 55-57, 59, 60, and 62-66 are allowable because they depend from independent claims which contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
